

# PALLET DISPENSER

## General Description

Innovative Handlings' Pallet Dispenser can be used for a wide variety of palletizing applications. Each system comes complete with a suitably sized hydraulic system, approval drawings with custom designs tailored to your needs and heavy duty construction. A variety of companion equipment can also be provided including complete conveyor systems and pallet squaring systems ideally suited for robotic palletizing.

## Benefits

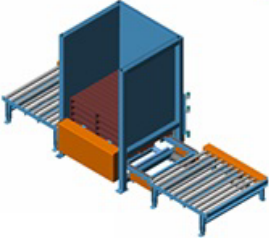

- Pallet Dispenser is designed for robotic applications requiring fast cycle times, accurate positioning and reliable operation.
- Pallet sizes range from most common sizes (40"x48", 42"x48", 48"x48") to custom sizes.
- System can be designed for one size of pallet or a "universal" option can be provided which will accommodate a full range of sizes automatically.
- Various pallet capacities with high stack safety panel.
- Control platforms range from simple terminal strips to a variety of PLC systems.
- Heavy duty construction providing for low maintenance along with easy operation.
- Custom designs for unique applications.

## Configurations

Straight Through Discharge

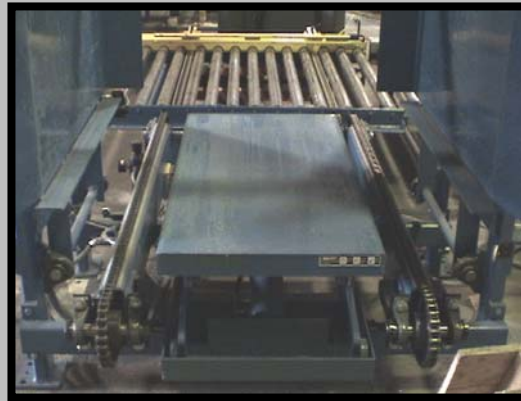

Discharge from Either Side

Right Angle Discharge

View Of pallet chain on edge conveyor

Pallet raising and lowering system

Pallet Stacker

## Additional Services

- A variety of control platforms available
- Fully Tested and certified before shipment from factory.
- “Hands on” or classroom training can be provided.
- Installations and start-up services available.
